One to two sentences summarizing the answer to the question: “What solution are you proposing?”

Implement new science, technology and engineering programs and concentrations.

Linkage to Strategic Plans

*University of Wisconsin-Stout Strategic Plan*

Goal X:
Goal Y:
Goal Z:

**Statement of the Issue:**

One to two sentences summarizing the answer to the question: “What issue are you trying to solve?”

We are not responding to changing society needs in science, technology and engineering areas consistent with our mission.

**Action Plan:**

| Write 3 – 5 high level steps needed to accomplish the priority statement above. | Responsible: “Who are the positions or people that will be responsible for each step?” | Timeline: MUST be specific target completion date. |
| “What has to be done for this priority to succeed?” | | |

Identify changing societal needs.

Propose new programmatic offering and concentrations.

Deploy new programs and concentrations.

Enable cross-disciplinary activities.
**Implication for Resources:**

“What is needed for this priority to succeed?”
(Human, fiscal, physical, other)

---

**Key Measures of Performance:**

Identify no more than two critical Measures of Performance when answering the question:

“What information will be collected to benchmark and measure the priority’s success?”

Minimum of three new programs/concentrations in science, technology and engineering by the fall of 2006: see performance indicators
One cross-disciplinary program/concentration in science, technology and engineering by the fall of 2006: see performance indicators
