PREFACE

Welcome to the 2009-10 Year-End Budget Review

The 2009-10 Year-End Budget Review is intended to provide the campus with open, timely, relevant and comprehensive information on UW-Stout's budget and personnel activity.

This report to the campus provides information concerning the first year of the 2009-2011 UW System biennial budget and its impact on UW-Stout. Highlights for 2009-10 include:

- State tax dollars and student tuition fund 58% of total university expenditures.
- Direct student support accounted for 67% of Stout's total expenditures, including instruction, academic support, financial aid and student services.
- UW-Stout, like the other UW institutions, received no pay plan.
- UW-Stout generated \$45 million in regular tuition revenue for the fiscal year.
- Design of the Harvey Hall Renovation Phase I Theatre project was completed.
- 1,649 total scholarships (including outside sources) were awarded for a total of \$1.9 million.
- Stout students received \$67.8 million in student financial aid.

The tables and graphs display budget and expenditure information, and add context by showing a history or trends and providing comparative data from UW System comprehensive universities.

We are very pleased to answer questions concerning the data or tables, and appreciate comments or suggestions that can lead to improvement of the report.

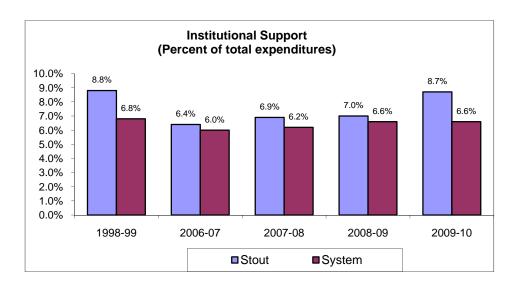

Meridith Wentz Director of Planning, Assessment, Research and Quality (715) 232-5312 wentzm@uwstout.edu

Tammy Cutsforth Advanced Budget and Policy Analyst (715) 232-2316 cutsfortht@uwstout.edu

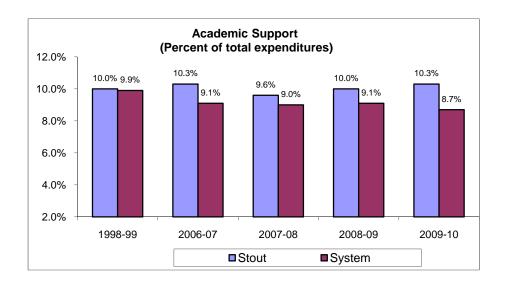

ALL FUND SUMMARY

General Program Operations, Program Revenue and Program Revenue Federal are the three major categories of funding support for UW-Stout. Definitions of these terms and of the specific appropriations can be found in the Glossary. UW-Stout's 2009-10 final year-end budget totaled just over \$160 million.

- State tax dollars and tuition continue to be the primary source of funds for the university. Tuition, however, went from 20.1% of the total in 1987-88 to 32.9% in 2009-10. Program Revenue has decreased slightly from 22.4% in 1987-88 to 22.2%. Program Revenue Federal decreased by 2.2 percentage points since 1987-88.
- Summary of Expenditures by accounting classification indicates a decrease of nearly 1 percentage point in the proportion of funds for salaries and fringe benefits combined since 1987-88. Stout continues to exceed the System average of 55.1% by 7.4 percentage points at 62.5%.
- Services and Supplies decreased from 2008-09 as a percentage of total expenditures to 29.1%, which is 4.6 percentage points higher than the comprehensive average. Capital expenditures are down by over \$250,000 from 2008-09 and below the comprehensive average of 1.7%. Together, they comprise 30.7% of total expenditures, a decrease of 2.5 percentage points since last year.
- The summary of expenditures by activity shows that 67% (64% in 08-09) of UW-Stout's total expenditures were for direct student support (instruction, academic support, financial aid, and student services).
- In 1998-99 Stout was the highest of all the comprehensive institutions in Institutional Support at 8.8% of total expenditures. In 2008-09 Stout was the 7th highest at 7.0% but in 09-10 is now again the highest at 8.7% compared to the UW System average of 6.6%.

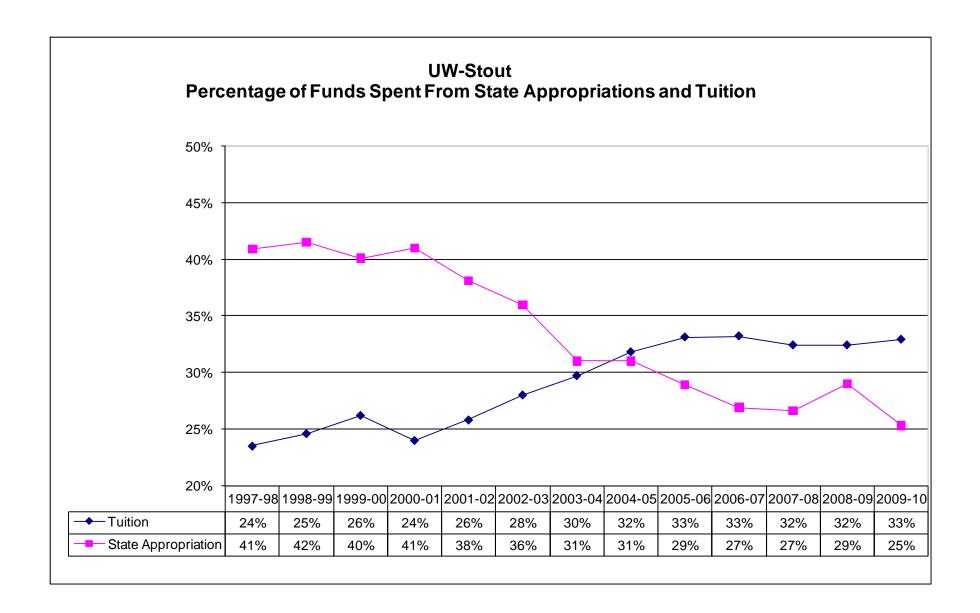

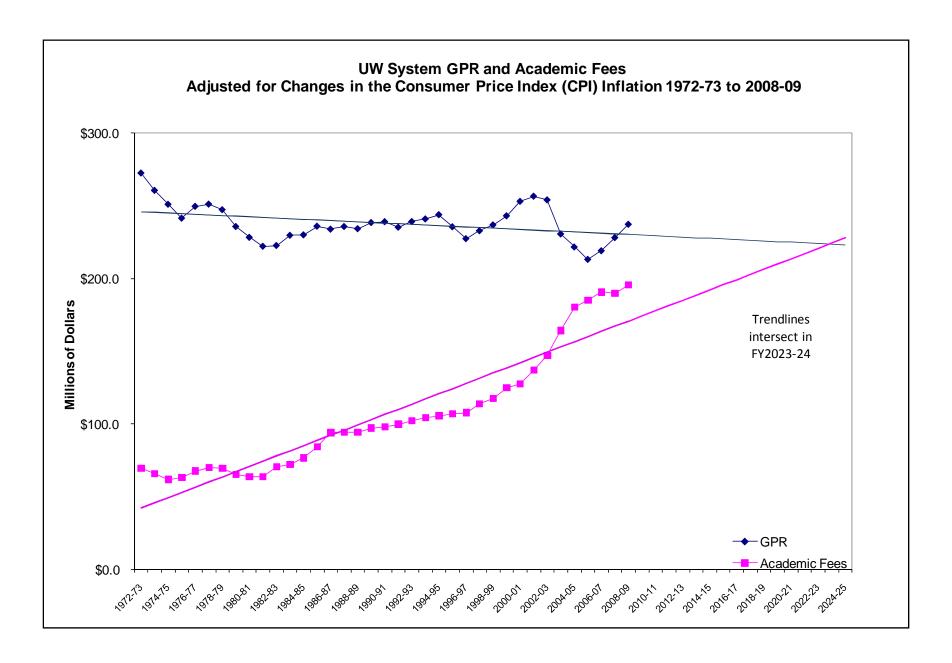

• UW-Stout is tied for the 2nd highest percentage of Academic Support at 10.3% of total campus expenditures up from 10.0% in 08-09. The comprehensive average is 8.7%.

- Out of state travel comprised 1.5% of the total services and supplies expenditures for 2009-10. This is down from the five-year high of 1.7% in 2006-07 but up from 2008-09 (1.32%). Out of state travel for fund 102 makes up 43% of the university total with fund 144 the next highest at 15%.
- UW-Stout has the 3rd highest percentage of Instruction at 39.2% of total expenses in 2008-09 compared to the Polytechnic peer group (public institutions only). The peer group average is 37%. As for Student Services, Stout ranks the 2nd highest of its peers at 11.6% of total expenses compared to the average of 8.1%.
- The percentage of total expenses that Stout spends on salaries and wages is near the peer average of 48.7% (5 of 8 institutions reporting). Stout ranks above the peer average on percentage of fringe benefits at 19% compared to the peer average of 17.0%.

^{*}UW System reports outreach activity under Public Service which differs from the NACUBO definition of reporting outreach under Instruction.

^{**}The allocation or distribution of the cost of capital assets, less any salvage value, to expenses over the estimated useful life of the asset in a systematic and rational manner. Depreciation for the year is the amount of the allocation or distribution for the year involved.

This field is used if the institution has not allocated all depreciation to other functions.

GENERAL PROGRAM OPERATIONS

The 102 appropriation is the main source of funding for instruction, academic support and institutional support. This section also includes the 131 appropriation or academic student fees including customized instruction and access to learning.

- The Statement of 102 Changes indicates UW-Stout's 102 budget increased by over \$3.6 million during the fiscal year. Increases in the 102 budget included \$47,252 for Growth Agenda Action Steps Grant, \$61,398 for Closing the Achievement Gap grant and carryover from 2008-09 represented just over \$2,685,000.
- For almost all activities (102/131 expenditures by activity) expressed as a percent of total 102 expenditures, Stout remains relatively close to the comprehensive average; usually within one percent in all activities. Instruction is the exception with Stout at 58.9% and the comprehensive average at 56.9%.
- Expenditures associated with Institutional Support (10.1%, down 0.7% from 08-09) still remain near the comprehensive average (10.6%) of total 102/131 expenditures. For 7 years Stout was below the comprehensive average. In 1998-99 Stout's Institutional Support was 13.4% of the total 102 expenditures for that year, a decrease of over 3 percentage points. The decrease can be attributed to the distribution of Technology and Information Services (TIS) expenditures from institutional support to the departments, which received the services and supplies starting in 1999-00. The TIS distribution method is in accordance with UW System Attachment 2, Distribution of General Support Services Costs and Distribution of Academic Computing Costs. The distribution of these expenditures helps to bring Stout more in line with other UW institutions for comparability purposes on activity cost data.
- Total UW-Stout 102/131 personnel expenditures as a percent of total 102/131 expenditures during the past five years have fluctuated slightly ranging from a low of 80.2% in 2007-08 to a high of 85.1% in 2001-02. UW-Stout in 2009-10 is the 2nd lowest (80.8%) of the comprehensives and is well below the System Average of 84.5% in personnel expenditures as a percent of total expenditures.
- FTE enrollment for fall 2009 reached its 2nd highest level of 7,513 FTE (including customized instruction). Headcount was at its highest level at 9,017.
- Stout generated \$45 million in regular tuition revenue in 2009-10 (excludes customized instruction and Access to Learning).
- Access to Learning generated just over \$2,100,000.
- Customized Instruction at Stout continues to grow. For 2009-10 customized instruction generated 1,345 FTE this compares to 1,126 FTE in 2008-09.

- The 2009-10 Student Technology Fee project allocations included \$66,709 for Learn @ UW, SPAM, Keyserver and Xythos maintenance, \$19,942 for Computer Based Testing Center coordinator, and \$43,693 for wireless network update.
- UW-Stout remains below the comprehensive average by over 10.0% in both SCH/FTE and Student to Staff Ratio.
- Overload payments decreased slightly from 2008-09 to 2009-10 by 2%, or \$22,296. Excluding Winterm there was a decrease of 6% or \$54,724. Overloads for 2009-10 came to a total of \$1,088,130, which is the 3rd highest total over the past eight years.
- During the past year, 194 computers (154 laptops and 40 desktops) for faculty, academic staff and classified staff were purchased at a total cost of \$343,091. Since the program was started in 1995-96, 2,967 computers have been purchased at a total cost of \$7,548,910.
- Design of the Harvey Hall Renovation Phase I Theatre (\$5,606,000) project was completed. Construction began in May 2010 and is scheduled for completion in January 2011.
- Of Stout's 1,133 fixed assets, 527 or 47% are fully depreciated and represent nearly \$9.3 million in acquisition cost.
- University-Wide reserves budget and additional funds totaled \$3,324,094. Allocations included:
 - ➤ University Marketing/Advertising \$520,000
 - > Faculty/Staff email system \$250,000
 - Peoplesoft \$106,965
- \$723,937 was allocated towards special projects from the four college reserves.
- The 4-year comparison on Stout's over authorized positions for Fund 102 show a total decrease of just over 4.0 FTE for all the personnel categories combined from 2008-09 to 2009-10. Comparing 2009-10 to 2006-07 there is an increase of over 16.0 FTE.

University of Wisconsin-Stout 2009-10 Annual Teaching Workload Report Executive Summary

Faculty workload issues emerged as one of the top priorities of the university during the listening sessions commencing the 1996-97 budget process. Over the past 13 years, the university engaged in several strategies including this report to address workload issues.

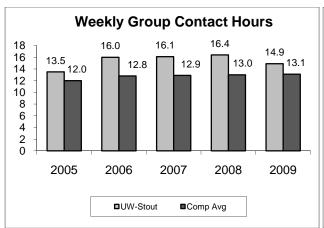

This report will summarize annual workload information for faculty/staff by college. Information gathered includes, (1) assigned time, (2) overload payments, (3) instructional workload measures generated from UW System PMIS and IAIS reports and (4) workload perception.

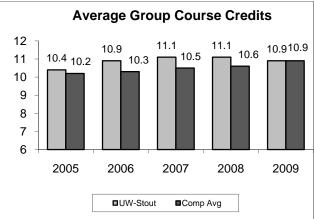

Summary of Results

- 1. Total assigned time for 2009-10 was 33 FTE*. This number represents 10% (8% in 2008-09) of the total FTE instructional positions at UW-Stout. The College of Education, Health and Human Sciences (CEHHS) had 10.1 FTE with most of the FTE for program directors. Nearly half of Stout's program directors reside in CEHHS. Assigned time includes positions such as Director of Bands, Honors Program Director and Senate of Academic Staff Chair, to name a few.
- 2. Overload payments decreased slightly from 2008-09 to 2009-10 by 2%, or \$22,296. Excluding Winterm there was a decrease of 6% or \$54,724. Overloads for 2009-10 came to a total of \$1,088,130, which is the 3rd highest total over the past eight years.
- 3. The 2007 UCLA HERI Faculty Survey question on teaching load show that satisfaction has increased slightly for full-time undergraduate Stout faculty/staff from 2004. In 2004, 34% (45% in 2001) indicated that teaching load was satisfactory or very satisfactory, whereas, 37% did in 2007. Stout's score is lower than both the Public 4-year Colleges (47%) and all 4-year Institutions (58%). Teaching load was also listed by 80% (76% in 2004) of those responding as a source of stress; an increase of 4 percentage points from 2004.
- 4. UW-Stout remains below the comprehensive average by over 10% in both Student to Staff Ratio and SCH/FTE.

5. Weekly Group Contact Hours decreased to 14.9 from 16.4 and Average Group Course Credits fell slightly to 10.9, the same as the comprehensive average.

		(364,790)
Balance		67,084

2009-10 Expenditure of Funds:

Stout Adventures Point Of View Cameras

Allocated: \$2148.00

Purchased: 2 Pelican camera cases, 2 POV cameras and accessories

Returned: \$249.87

Metabolic Analyzer

Allocated: \$5722.00

Purchased: Metacheck device, Diet Master software, Metabreathers

Returned: \$180.00

Professional Lighting Control Board

Allocated: \$8159.00

Purchased: Congo Jr. lighting board and accessories

Returned: \$0.00

Price Commons Wireless Network Improvement (less return funds)

Allocated: \$20,300.00

Purchased: Wireless access points, ceiling boxes, cabling and accessories

Returned: \$85.74

Enhancing services to students in the Advisement Center:

4-Coma1 8000 desktop computers - \$2184.00

4-19" HP monitors - \$660.00

1-HP LaserJet Printer P2035n - \$287.00

Back Up Toner Cartridges - \$241.96

Printer Paper - \$22.33

Total - \$3395.29

Blue Devil Productions spent the entire \$4,518.00 that was allocated in the Tech Free towards the Purchase of 2 27in iMacs. The iMacs were purchased to replace two aged Macs that were being used in the office. New software was purchased through Blue Devil Productions yearly budget to put the computer to good use. The Adobe Creative Suite 5 and Microsoft Office Suite were two of the software packages purchased.

Mathematics, Statistics and Computer Science: \$32,248 for tutors to work in the Math Teaching and Learning Center to support students enrolled in MATH-010 and MATH-110.

Fringes for LTE: \$4,548

Outcome / Impact Statements:

Stout Adventures Point Of View Cameras

Students have been able to check out our two point-of-view cameras for free from Stout Adventures since March of 2010. The equipment has been a big success in that it has been a popular item. Students have check out the camera to make videos for class and for fun. Stout Adventures has used the technology to make post-trip videos to market future trips.

Metabolic Analyzer

Within the first month, we had over 22 people test their metabolic rate with the Metabolic Analyzer. We have seen both faculty/staff and students utilizing the metabolic analyzer. It has helped a lot in educating the students about the right way of losing weight and maintaining a healthy weight.

Professional Lighting Control Board

The new lighting control board has made it possible to meet the demands of more complex student event lighting needs. This increased capability has made events more enjoyable and impressive for students.

Price Commons Wireless Network Improvement

Increased wireless network coverage in the Commons has given students greater access to the internet. Students are now able to utilize their campus laptops in common areas to connect to the network. This change helps to make Price Commons a more useable study and work place.

Enhancing services to students in the Advisement Center:

The Advisement Center replaced four outdated computers in our computer lab to assist with advising and career exploration of Stout students. Because the Advisement Center is located in a build with low wireless connectivity, these Ethernet connected computers assist academic advisors and career counselors working with student. The advisors and counselors are able to sit with students in the lab to explain, guide, and coach students through the use of software including, but not limited to PeopleSoft Campus Solutions/AccessStout, MBTI, and the Strong Interest Inventory. Students gain from the fact they can print class schedules, assessment results, and other items before leaving the Advisement Center for future use.

With the addition of the two new iMacs Blue Devil Productions was able to purchase new software that allows us to make amazing advertisement with amazing colors and graphics. The speed of the new computers allowed our staff to move at a higher performance than we could with the old slow machines. These new iMacs allowed Blue Devil Productions' staff to help provide better programming advertisement to the UW-Stout student body and Menomonie community. With the improved advertising Blue Devil Productions was able to meet our attendance goal and had over 5,500 attendees in the spring 2010 semester. The two iMacs provided an opportunity for students that receive a PC laptop to work with a new computer system that may be unfamiliar to them.

Mathematics, Statistics and Computer Science: Mathematics tutors were available to students about 50 hours per week with one to three tutors being available at a time to assist students. Over the entire year, over 4200 student visits were made to the tutoring sites. Note that this includes "repeat" students who visited more than one time.

LIT

- o Learn@UW used to provide access for all students to the UW System wide Desire2Learn course management software system.
- o Maintenance for Keyserver client licensing enabling the use of high end software for all undergraduate students
- O Support for keyserved high end software including AutoCad, Adobe Creative Suite and others to be loaded on each student laptop.
- o Continued support for anti-SPAM services.
- o Continued updating of the campus wireless network improving speeds and capacity.
- o Replaced outdated VPN server.
- O Upon receipt of the video production equipment, the system was used immediately to stream and record the Spring 2010 Commencement. After several student training sessions this summer and fall, the system is currently being used on a weekly basis by the Sports Dept. We expect usage by others to slowly increase as the year goes on, and word gets out.
- O Upgraded student file storage and file server (Xythos) and continue support.
- Several students have used the adjustable height workstations to test at and to complete homework at. The adjustable height workstations allow students who use powered mobility (power chair or scooter) access. They also allow students that need to alternate between sitting and standing the flexibility to do so.
- Several students have commented on the upgrade of the digital recorder. All of the comments have been very positive. The digital recorders are easy to use and operate and they are much more reliable than the old cassette players that we were using. The digital recorders are also more accessible as they are held in

the students hand versus being placed on a work surface.

- The computers and software programs have been used by several students. This has created independence for the students and has also cut down on some of the staff time that was previously used for recording exams.
- An incoming student contacted our office this summer inquiring about services for his hearing loss.
 Originally, the student was requesting CART services; however, he was encouraged to try using the FM
 system instead. The FM system creates a lot more flexibility in classes than CART would. The student
 tried the FM system and is enjoying it. He is currently using the FM system in all of his classes. CART
 is extremely expensive, so not only is the student more independent, but the University also saved a lot of
 money.
- The students who are piloting the Pulse Smart Pens are really enjoying them. The feedback has all been very positive. These pens have allowed the students to take their own notes in class and if they miss something they can go back and listen to the lecture again and pick out the important parts. This has also cut down on the amount of paperwork that our office has had to generate as the pen replaced peer note takers that were on state payroll.
- The Scanner/Copier has been very helpful. Our office has been able to make various reading assignments accessible for students who would otherwise not be able to access them.
- The RFB&D Victor Players allowed our office to continue to provide RFB&D textbooks to the students who need them.

LTE for Qualtrics Survey Tool

In 2009-10 a total of 361 people were trained:

Faculty: 39 (11%) Staff: 181 (50%) Students: 141 (39%)

2010-11 Objectives:

Stout Adventures Point Of View Cameras

Our expectations for 2010-2011 include continued use of the technology by Stout Adventures and the campus community. We will again make an announcement via the campus daily email to remind students that they are available thanks to the Student Tech Fee.

Metabolic Analyzer

In the future, we will be trying to explore more avenues to better market the metabolic analyzer among the UW-Stout students.

Professional Lighting Control Board

We will increase our usage of the new lighting board as technicians become more familiar with the capabilities. The new lighting board will be a nice compliment to the MSC remodel.

Price Commons Wireless Network Improvement

Our expectations for 2010-2011 include continued use of the new technology by all students. We expect usage to increase as more students discover the new coverage and while the MSC is closed for renovation.

Enhancing services to students in the Advisement Center:

Continue to provide a state of the art computer lab where Stout students can research career options, complete career assessments, and learn the functions of our online student information systems. Continue to promote and make available these computers for Stout students needing advising assistance and career exploration options. Continue to grow the number of transfer, re-entry, re-entry transfer students, and special (non-degree) who can use this lab for help with initial registration assistance.

The two new iMacs with the new software purchased by Blue Devil Productions will allow Blue Devil Productions to make great advertisement avenues to the community and UW-Stout student body. The new technology in the office will allow anybody to learn a talent that can only be cultivated with the power of an iMac. The new computers will allow new students to help Blue Devil Productions to reach out to more of the student body with new and interesting advertisements.

Mathematics, Statistics and Computer Science: Continue to provide a high level of tutoring service for students taking the MATH-010 and MATH-110 courses through the Math Teaching and Learning Center.

LIT

- O Continue support of keyserve licensing and maintenance to provide access to high end software applications for students and faculty.
- O Continue to support the maintenance for the anti-spam services provided to all students.
- O Look into more wireless network upgrades. The wireless network has improved much but more can be done to support the student's network connectivity across campus.
- o Continue support for D2L course management system.
- o Continue VPN to provide students high end access to keyserved software.
- O Continue support and training for the video equipment, and to increase its usage.
- o Continue support of student file storage and file server (Xythos).
- Continue to provide accommodations to students in a reasonable timeframe.
- Continue to encourage students to be as independent as possible.
- Continue to make students aware of the technologies available to them to assist with their independence both in school and after they graduate.

LTE for Qualtrics Survey Tool

No objectives for 2010-11, since the Qualtrics LTE position is being funded from a different source.

UW-STOUT CAPITAL PROJECTS 2009-2010

The first year of the 2009-10 biennium resulted in the approval and construction of the following capital projects and planning studies:

Construction of the **Jarvis Hall Science Wing Renovation and Addition** (\$43.1 million) project began in June 2008. Phase I was completed and opened in August 2009. Phase II was completed in August 2010. Design of the **Harvey Hall Renovation** – **Phase I Theatre** (\$5,606,000) project was completed. Construction began in May 2010 and is scheduled for completion in January 2011. Planning and design for the **Memorial Student Center Renovation** (\$19,000,000) project began. Construction is scheduled to begin in early 2011.

Major projects submitted for the **2009-2011 Capital Budget** include: **Fleming Hall Renovation** (\$6,329,000).

Submitted and obtained approval for **20 small projects** totaling \$1,020,775. Projects included Home Economics kitchen upgrade (\$146,400); Antrim Hall window replacement (\$149,980); Parking lot #11 surfacing (\$146,400); and Vocational Rehabilitation emergency generator replacement (\$94,495). **All agency or small projects** completed in 2009-10 totaled \$6,218,691.

The 2011-2017 Campus Physical Development Plan was completed and submitted to UW System Capital Planning and Budget. The highest priority issue for the campus is the Harvey Hall Renovation – Phase II Remodel. Paramount to the continued use and functionality of Harvey Hall is the upgrading of the building infrastructure (life safety, ADA accessibility, electrical, HVAC, plumbing and telecommunications). The inability to receive funding for the renovation has been a disappointment. Other priorities include: Changing Needs in Student Services Support Areas – Bowman Hall; Changing Programs and Infrastructure Upgrade – Home Economics Building; Recreation and Athletic Facilities; Residence Hall Infrastructure and Ability of Aging Residence Halls to Remain Competitive, University Centers; Appropriate Facilities and Location for Student Health Services, Robert S. Swanson Learning Center and Campus Parking. In addition, six continuing themes have been identified: Classroom Size, Quality and Adequacy; Infrastructure Concerns Related to Older Buildings; The Right Space: Consolidation of Similar Functions and Availability to the Public; Telecommunications Closets and Wiring Needs; Sustainability; and Life Safety and Accessibility.

Eight (8) **Laboratory Modification Project Requests** for 2010-2011 were approved totaling \$310,849. Projects include: Print Making Studio; Science Education Teaching Lab; Golf Enterprise Management Lab; Environmental Sustainability Lab; Technical Communications Resource Center; Food Science Lab; Plastics Engineering Lab; and General Assignment Classrooms.

No E-Scholar Classroom Funds Project Requests were funded for 2009-2010.

No properties were acquired by the campus in 2009-2010.

A digital signature process was successfully implemented for **Space Requests**. Eight (8) **Space Requests** were submitted and seven (7) were approved with one pending.

The Campus Master Plan was completed and presented to the Board of Regents in October 2009.

UW-Stout Computer Cost Share Program

The computer cost-share program was designed to share 50% of the cost of new and replacement computers, including the cost of maintenance, network connection and Microsoft Office Pro software. The program, which was started in 1995-96, was modified in 2000-01 to support the campus movement to a laptop environment. Desktop computers continue to be supported at 50%, up to \$1,550, for employees who perform the majority of work at their workstation. Laptop computers are supported at 50% up to \$2,150, for faculty and instructional staff, as well as other interested employees.

Beginning in 2001-02, Compaq was awarded the contract for all PC's. Apple is the laptop provider for academic programs in Graphic Communication Management, Art, and Art Education.

The program runs continuously throughout the fiscal year and is designed to purchase computers for faculty, academic staff and classified staff funded from 102 departmental accounts and the 131 enrollment growth account. However, 102, 128, 150 or 151 accounts may be used to cover the department's share of the cost. A Cost Share Computer Purchase Form must be completed to participate in the program.

During the past year, 194 computers (154 laptops and 40 desktops) for faculty, academic staff and classified staff were purchased at a total cost of \$343,091. Since the program was started in 1995-96, 2,967 computers have been purchased at a total cost of \$7,548,910.

Year	Dollar	Number of	Laptop	Desktop	Apple	Compaq

PROGRAM REVENUE

The primary focus of the program revenue section is the 128 appropriation (auxiliaries). Auxiliary operations are required to generate their own revenue; however, the State of Wisconsin still exerts a great deal of control over the 128 appropriation through review of fiscal operations.

Other program revenue appropriations such as the 133 gifts and grants, have greater flexibility including authority to create new FTE positions and to automatically receive budget authorization to expend funds.

- A five-year comparison of 128 appropriation expenditures shows that fringe benefits and personnel fluctuate between 38% and 50% of total expenditures. In 2009-10, fringe benefits and personnel were 39%, about 4.5 percentage points lower than 2007-08. Capital expenditures in 1995-96 were 8.7% of the total and currently are at 2%.
- In a System comparison of 128 appropriation expenditures, Stout is above the System average for personnel expenditures at 27.8% of total expenditures and also for fringe benefits (11.1%).
- A graph of debt service expenditures per FTE student for each of the comprehensive campuses illustrates the wide range between campuses (\$143-\$932) with UW-Stout ranking 3rd lowest in terms of debt per student at \$352 compared to \$317 in 08-09.
- For programs dependent on self-sustaining revenues, adequate reserve levels are essential to effective fiscal management. Reserves are used to fund items such as new facilities, deferred maintenance, facility remodeling, and debt retirement obligations. UW System establishes allowable reserves for each program in accordance with FPPP #43. Most auxiliary operations are below their allowable reserves with just Total Student Activities and Intramurals above the maximum allowable.
- Private gifts & grant expenditures show considerable fluctuation from year-to-year (over the past five years) with an 8.3% decrease in 2004-05 to a 24.8% increase for 2006-07. 2009-10 had an increase of 1.1%
- 1,649 scholarships (including outside sources) were awarded in 2009-10 for a total of \$1,931,766. This is a decrease of \$208,682 from 2008-09. The number of scholarships increased by 345.

Review of 2009-10 Performance				
For the Year Ended 6/30/10				
	2009-10		Net Fund	
	Begining	2009-10	Change From	
	Fund	Ending Fund	_	Narrative Describing Change in Actual Performance to Plan
	balance	balance	Inc/Dec	
				Revenues decreased due to the State pullbacks, interest income and 2010-11 transfers to debt service. Ending cash balance decreased due to
Residence Life	324,047	(688,855)	(4.012.002)	revenue changes offset by an increase in our encumbrance load. Other factors were transfers for prior year Physical Plant charges, travel, custodial/maintenance fees and building repairs.
Residence Life	324,047	(000,000)	(1,012,302)	Ŭ ,
				Ending cash balance decreased due to the State pullbacks and 2010-11 transfers to debt service offset by an increase in food service revenues.
University Dining Services	416,111	186,826	(229,285)	
				Total expenditures increase due to a payment to the Building Trust Fund offset by decreased capital spending due to delays in the MSC remodel,
				slaary savings from furloughs and a vacancy. Custodial Services, office supplies, building & equipment repairs, maintenance, training & travel
University Centers	470,158	337,877	(132,281)	and postage. Ending cash balance decreased due to the expenditures and the State pullbacks.
Student Activities-Allocable	187,669	163,040	(24 620)	Revenues, expenses & fund balance were all within the allowable variance.
Student Activities-Allocable	107,003	100,040	11,354	Total expenditures decreased due to salary savings from the loss of an employee and the giring of the replacement, single coverage vs. family for
			,	the replacement, travel, programming, office supplies, education programming and maintenance. Ending cash balance increased due to the
Student Activities-Non Allocable	134,578	145,932		expenditures and interest income decreasing.
Student Activities-Miscellaneous	110,076	113,175	3,099	
Total Student Activities	432,323	422,147	(10,176)	
	91,261	102,895	11 634	Salaries & fringe were significantly below budget due to a decrease in wages and fringe benefits due to a family coverge employee dropping to
Intramurals	31,201	102,000	11,004	single.
mariaraio				
				Total expenditures increased due to fringe benefits, equipment purchases, supplies, insurance and maintenance. Ending cash balance
Intercollegiate Athletics	37,754	13,864	(23,890)	decreased due to expendiutre changes. The expenditures were offset by seg feerRevenue and merchandising revenue.
				Total expenditures decreased due to an unclassified position b eing replaced by two part time LTE positions creating salary savings and fringe
				savings, student wages, building trust refund for the turf replacement, supplies purchases and bonding interest. Ending cash balance increased
Recreation Complex	110,273	228,815	118,542	due to the grand total expenditures and an increase in seg fee revenue.
				Ending cash balance increased because of limitations to receive invoices by the end of the fiscal year, outstanding orders paid in July and back
Instructional Resources Services	192,737	222,672	29 935	orders delayed until August.
inion do non in topoda observations	.02,701		20,000	·
l., a .	404.40=	00.000	(0.4.004)	Total expenditures were lower due to cautious spending & a deferral of the electronic medical records project. Ending cash balance increased
Health Services	191,197	96,966	(94,231)	due to the decrease in spending.
Counseling Center	0	1,254	1,254	Revenues, expenses & fund balance were all within the allowable variance.
				Total revenues decreased due to a decrease in interest earnings and a decrease in the Higher One commission which is lower due to interest
				rates in the economy. Total expenditures deceased due to reduced salaries & fringe from the furloughs, reduced travel, capital purchases
				deferred to 2010-11 and the elimination of the centralized services fee to this area. Ending cash balance decreased due to the effect of the
Campus Card	31,178	(5,035)	(36,213)	above and a change in the encumbrance amount.
	,	(2,222)	(22, 2)	-
Parking Services	199,161	(6,524)	(205,685)	Ending fund balance decreased due to state financial aid transfer, state pullbacks for furloghs, 1% cut and 2% pay reduction.
				Description of the tensor of the second due to force or control of the second due to force or the seco
Fleet Vehicles	61,587	12,748	(40.020)	Revenues decreased due to fewer car rentals, state financial aid transfer, 1% cut, 2% pay plan reduction and furloughs. Expenditures for supply & leasing costs decrease due to fewer car rentals.
l leet verilcles	01,367		, , ,	a reasing costs decrease due to rewer can remais.

PROGRAM REVENUE FEDERAL

Program revenue federal includes federally funded grants and contracts, federally funded student financial aid programs, and indirect cost reimbursements.

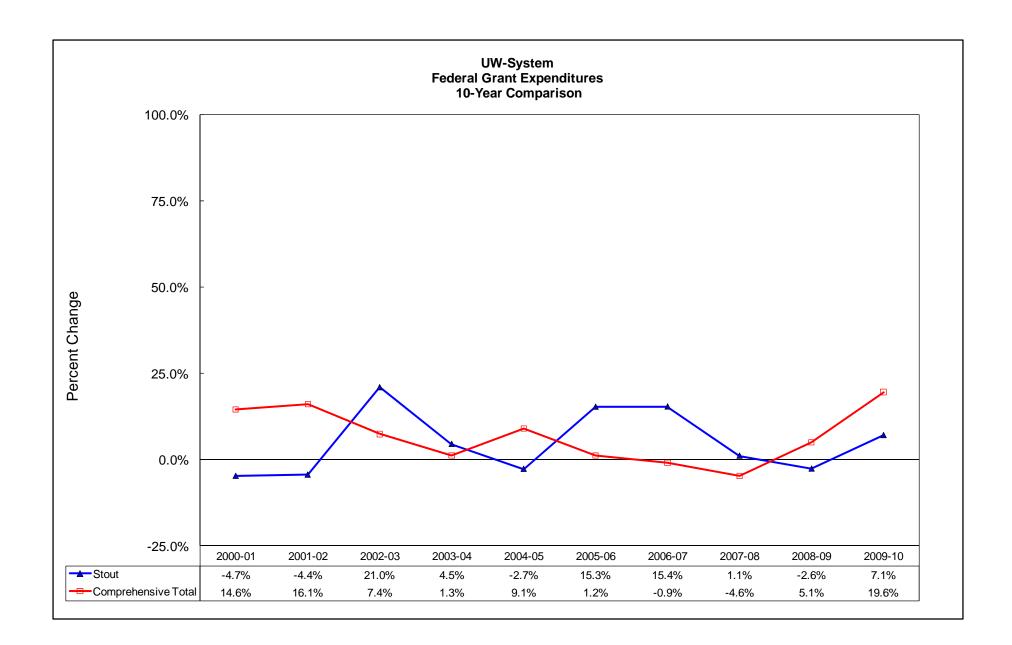

- UW-Stout saw a 7.1% increase in Federal grant expenditures in 2009-10. Stout continues to be ranked among the highest of the comprehensive campuses in total Federal grant expenditures (currently 3rd).
- UW-Stout students received \$67.8 million in student financial aid for 2009-10 with the majority, just over \$55.0 million (81%), funded from federal loan programs.
- Financial Aid dollars per recipient at Stout went from \$9,313 in 2008-09 to \$9,810 in 2009-10.
- Average indebtedness at graduation for loan recipients at Stout is at a high of \$25,496, this is \$1,707 more than the UW-System average of \$23,789 for 2008-09. (Source is UW System)
- Of the 2008-09 graduates, 75% graduated with debt; one percentage point lower than in 2007-08. Graduates include only undergraduate students. (Source is UW System)
