The Valspar Corporation
Material Safety Data Sheet

1. PRODUCT AND COMPANY IDENTIFICATION

Material Identification
Product ID: 400.0000200.076
Product Name: 2001CHEVROLETORANGE
Product Use: Paint or Coatings Related Product
Print date: 09/Oct/2007
Revision Date: 09/Oct/2007

Company Identification
The Valspar Corporation - Architectural Coatings Division
1000 Lake Road
Medina, OH 44256
Manufacturer's Phone: 1-330-725-4511

24-Hour Medical Emergency Phone: 1-888-345-5732

If this section is blank there are no hazardous components per OSHA guidelines.

3. HAZARDS IDENTIFICATION

Primary Routes of Exposure:
Inhalation
Ingestion
Skin absorption
Emergency Overview:
This section not in use.

This product contains ingredients that may contribute to the following potential acute health effects:

**Inhalation Effects:**
Harmful if inhaled. May affect the brain, nervous system, or respiratory system, causing dizziness, headache, nausea or respiratory irritation.

**Eye Contact:**
Causes eye irritation.

**Skin Contact:**
May cause moderate skin irritation.

**Acute Ingestion:**
None known

**Other Effects:**
May cause kidney damage. May cause liver damage.

This product contains ingredients that may contribute to the following potential chronic health effects:

Notice: Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal. Prolonged and/or repeated contact can result in skin irritation. May cause skin drying with prolonged exposure.

See Section 11 for toxicological information about Mutagens, Teratogens and Carcinogens.

If this section is blank, no information is available.

4. FIRST AID MEASURES

**Inhalation:**
If affected by inhalation, move victim to fresh air. If symptoms persist, seek medical attention.

**Eye Contact:**
In case of contact, or suspected contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention immediately after flushing.

**Skin Contact:**
In case of contact, immediately flush skin with plenty of soap and water for at least 15 minutes. If irritation persists get medical attention. Remove contaminated clothing and shoes. Wash clothing before reuse. Thoroughly clean contaminated shoes.

**Ingestion:**
If swallowed, contact medical personnel immediately to determine best course of action.

**Medical conditions aggravated by exposure:** Any respiratory or skin condition.

5. FIRE FIGHTING MEASURES

- Flash point (Fahrenheit): -31° F (-35° C) TCC/PM
- Lower explosive limit: 1 %
- Upper explosive limit: 13 %
- Autoignition temperature: Not available. ° F ( ° C)
- Sensitivity to impact: No.
- Sensitivity to static discharge: Subject to static discharge hazards. Please see bonding and grounding information in Section 7.

**Hazardous combustion products:**

Product ID: 400.0000200.076
Unusual fire and explosion hazards:
Contaminated rags, wipes, saw dust, etc., may catch fire spontaneously. Store waste under water in closed metal containers until disposed of in compliance with applicable regulations. Contains oxidizable materials.

Extinguishing media:
Carbon dioxide, dry chemical, foam and/or water fog.

Fire fighting procedures:
Use water spray to cool nearby containers and structures exposed to fire. Firefighters should be equipped with self-contained breathing apparatus and turn out gear.

6. ACCIDENTAL RELEASE MEASURES

Action to be taken if material is released or spilled:
Ventilate area. Avoid breathing of vapors. Use self-containing breathing apparatus or airmask for large spills in a confined area. Wipe, scrape or soak up in an inert material and put in a container for disposal. See section 5, "Unusual Fire and Explosion Hazards", for proper container and storage procedures. Remove sources of ignition. Remove with inert absorbent and non sparking tools. Avoid contact with eyes.

7. HANDLING AND STORAGE

Precautions to be taken in handling and storage:
Keep away from heat, sparks, and flames. Keep container closed when not in use. Do not store above 120 degrees F. (49 degrees C). Based on flash point and vapor pressure, suitable storage should be provided in accordance with OSHA regulation 1910.106, Ontario OH&S regulation 851 section 22. Empty containers may contain product residue, including flammable or explosive vapors. Do not cut, puncture or weld on or near container. All label warnings must be observed until the container has been commercially cleaned or reconditioned. If the product is used near or above the flashpoint, an ignition hazard may be present. Activities, uses, or operations which liberate vapor (such as mixing or free fall of liquids) may also present an ignition hazard. Please ensure containers and other interconnected equipment are properly bonded and grounded at all times.

8. PERSONAL PROTECTIVE EQUIPMENT AND EXPOSURE CONTROLS

Personal Protective Equipment

Eye and face protection:
Avoid contact with eyes. Wear chemical goggles if there is the possibility of contact or splashing in the eye.

Skin protection:
Appropriate chemical resistant gloves should be worn. To prevent skin contact wear protective clothing covering all exposed areas.

Respiratory protection:
If exposure cannot be controlled below applicable limits, use the appropriate NIOSH approved respirator such as an air purifying respirator with organic vapor cartridge and dust/mist filter. Consult the respirator manufacturer's literature to ensure that the respirator will provide adequate protection. Read and follow all respirator manufacturer's instructions.

Ventilation
Required when spraying or applying in confined area. Ventilation equipment should be explosion proof. Eliminate ignition sources.

9. PHYSICAL PROPERTIES

- **Odor:** Normal for this product type.
- **Physical State:** Liquid
- **pH:** Not determined.
- **Vapor pressure:** NOT DETERMINED mmHg @ 68°F (20°C) 5
- **Vapor density (air = 1.0):** Not determined.
- **Boiling point:** -42°F (-41°C)
- **Solubility in water:** Not determined.
- **Coefficient of water/oil distribution:** Not determined.
- **Density (lbs per US gallon):** 6.38
- **Specific Gravity:** .76
- **Evaporation rate (butyl acetate = 1.0):** 5.6

10. STABILITY AND REACTIVITY

- **Stability:** Stable
- **Conditions to Avoid:** None known.
- **Incompatibility:** Strong oxidizers.
- **Hazardous Polymerization:** None anticipated.
- **Hazardous Decomposition Products:** Carbon monoxide and carbon dioxide.
10. STABILITY AND REACTIVITY
Sensitivity to static discharge:
Subject to static discharge hazards. Please see bonding and
grounding information in Section 7.

11. TOXICOLOGICAL INFORMATION

Mutagens:

Teratogens:

Carcinogens:
Contains ethylbenzene, which has been determined by NTP to be an animal carcinogen with no known relevance to
humans. IARC has classified ethylbenzene as possibly carcinogenic to humans (2b) on the basis of sufficient evidence of
carcinogenicity in laboratory animals but inadequate evidence of cancer in humans.

<table>

12. ECOLOGICAL DATA
Not available at this time.

13. DISPOSAL CONSIDERATIONS
Disposal should be made in accordance with federal, state and local regulations.

14. TRANSPORTATION INFORMATION
U.S. Department of Transportation
Proper Shipping Name: CONSUMER COMMODITY ORM-D
UN ID Number: CONCOM

Product ID: 400.0000200.076
### 14. TRANSPORTATION INFORMATION

**U.S. Highway & Rail Shipments**

The supplier may apply one of the following exceptions: Combustible Liquid, Consumer Commodity, Limited Quantity, Viscous Liquid, Does Not Sustain Combustion, or others, as allowed under 49CFR Hazmat Regulations. Please consult 49CFR Subchapter C to ensure that subsequent shipments comply with these exceptions.

**International Air Transport Association:**
- **Proper Shipping Name:** AEROSOLS, FLAMMABLE
- **Hazard Class:** 2.1
- **UN ID Number:** UN1950

**International Maritime Organization:**
- **Proper Shipping Name:** AEROSOLS
- **Hazard Class:** 2
- **Non-Bulk UN ID Number:** UN1950
- **Marine Pollutant Ingredient 1** Dibutyl phthalate
