ColorWorks® from KRYLON® Country Loft® Satin Finish Decorator Colors

Section III — PHYSICAL DATA

PRODUCT WEIGHT -- N.A.
SPECIFIC GRAVITY -- N.A.
BOILING RANGE -- 0-342 °F
VAPOR DENSITY -- Heavier than Air
SAFETY FACTORS IN WATER -- N.A.

Section IV — FIRE AND EXPLOSION HAZARD DATA

FLAMMABILITY CLASSIFICATION -- Flash Point < 0 °F
EXTINGUISHING MEDIA -- Carbon Dioxide, Dry Chemical, Foam
UNUSUAL FIRE AND EXPLOSION HAZARDS
- Isolate from heat, electrical equipment, sparks, and open flame. Closed containers may explode when exposed to extreme heat. Application to hot surfaces requires special precautions. During emergency conditions, exposure to decomposition products may cause a health hazard.
- Symptoms may not be immediately apparent. Obtain medical attention.

SPECIAL FIRE FIGHTING PROCEDURES
- Full-protective equipment including self-contained breathing apparatus should be used.
- Water spray may be ineffective. If water is used, fog nozzles are preferable. Water may be used to cool closed containers to prevent pressure buildup and possible autoignition or explosion when exposed to extreme heat.

Section V — HEALTH HAZARD DATA

ROUTES OF EXPOSURE
- Inhalation
- Skin absorption
- Eye contact
- Skin contact
- Ingestion
- Injection

ACUTE Health Hazards

EFFECTS OF OVEREXPOSURE
- Irritation of eyes, skin and respiratory system. May cause nervous system depression. Extreme overexposure may result in unconsciousness and possibly death.

SYMPTOMS AND SYMPTOMS OF OVEREXPOSURE
- Headache, dizziness, nausea, and loss of coordination are indicators of excessive exposure to vapors or spray mist.
- Redness and itching or burning sensation may indicate eye or excessive skin exposure.

MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE
- None generally recognized.

EMERGENCY AND FIRST AID PROCEDURES
- IF INHALED: If affected, remove from exposure. Restore breathing. Keep warm and quiet.
- IF ON SKIN: Wash affected area thoroughly with soap and water.
- IF IN EYES: Flush eyes with large amounts of water for 15 minutes. Get medical attention.
- IF SWALLOWED: Seek medical attention.

CHRONIC Health Hazards
- No information.

HAZARDS OF EXPOSURE
- Prolonged overexposure to solvents in Section II may cause adverse effects to the liver, urinary, cardiovascular, and reproductive systems.

HAZARDOUS DECOMPOSITION PRODUCTS
- By fire: Carbon Dioxide, Carbon Monoxide

HAZARDOUS POLYMERIZATION
- Will not occur.

Section VI — REACTIVITY DATA

STABILITY
- Stable

INCOMPATIBILITY
- None known.

HAZARDOUS DECOMPOSITION PRODUCTS
- By fire: Carbon Dioxide, Carbon Monoxide

HAZARDOUS POLYMERIZATION
- Will not occur.

Section VII — SPILL OR LEAK PROCEDURES

STEPS TO BE TAKEN IN EVENT OF SPILL OR LEAK
- Remove all sources of ignition. Ventilate and remove with inert absorbent. WASTE DISPOSAL METHOD
- Waste from this product may be hazardous as defined under the Resource Conservation and Recovery Act (RCRA) 40 CFR 261. Waste must be tested for ignitability to determine the applicable EPA hazardous waste numbers. Do not incinerate. Disposal of in accordance with Federal, State, and local regulations regarding pollution.

Section VIII — PROTECTION INFORMATION

PRECAUTIONS TO BE TAKEN IN USE
- Use only with adequate ventilation. Avoid breathing vapor and spray mist. Avoid contact with skin and eyes. Wash hands after using.
- These coatings may contain materials classified as nuisance particulates (listed as "Dust" in Section II) which may be present at hazardous levels only during sanding or abrading of the dried film. If specific dusts are listed in Section II, the applicable limits for nuisance dust are 0.01 mg/m³ (total dust). OSHA, HEIS, MA 15 mg/m³ (total dust), 5 mg/m³ (respirable fraction).
- VENTILATION: Local exhaust preferable. General exhaust acceptable if the exposure to materials in Section II is maintained below applicable exposure limits. Refer to OSHA standards 1910.1000, 1910.1007, 1910.108.
- RESPIRATORY PROTECTION: If personal exposure cannot be controlled below applicable limits by ventilation, wear a properly fitted particulate respirator approved by the National Institute for Occupational Safety and Health (NIOSH) for protection against nuisance dusts in Section II. When sanding or abrading the dried film, wear a dust/mist respirator approved by NIOSH.

PROTECTIVE GLOVES
- None required for normal application of aerosol products where minimal skin contact is possible. For long or repeated contact, wear chemical-resistant gloves.

EYE PROTECTION
- Wear safety spectacles with perforated side shields.

Section IX — PRECAUTIONS

NFPA Code 30B Level -- 2
GDL STORAGE CATEGORY -- IA
PRECAUTIONS TO BE TAKEN IN HANDLING AND STORAGE
- Contents are EXTREMELY FLAMMABLE. Keep away from heat, sparks, and open flame. Vapors will accumulate rapidly and may ignite explosively. Avoid contact with skin and eyes. Wash hands after using.
- Extinguish all flames, pilot lights, and heaters - Turn off stoves, electric tools and appliances, and any other sources of ignition.

Communicate and store hazardous substances in accordance with provisions of the Code of Federal Regulations, Title 49, Sections 172.101 and 172.102.

OTHER PRECAUTIONS
- None.

The above information pertains to this product as currently formulated, and is based on the information available at this time. Addition of reducers or other additives to this product may substanitally alter the composition and hazards of the product. Since conditions of use are outside our control, we make no warranties, express or implied, and assume no liability in connection with any use of this information.
