MANUFACTURER'S NAME:
Cookson Matthey Ceramics Inc.

EMERGENCY TELEPHONE NUMBER:
Regulatory Information: (610) 648-8165 (Weekdays 8:00am-5:00pm EST)
Emergency Telephone: (610) 648-8185 (24 hrs.)

ADDRESS (NUMBER, STREET, CITY, STATE, ZIP):
1397 King Road, West Chester, PA 19380

CHEMICAL NAME AND SYNONYMS:
Brushing Bright Gold (Care Liquid Bright Gold)

TRADE NAME AND SYNONYMS:

Chemical FAMILY:
Mixed resins, solvents and organo-metallic compounds

FORMULA:
Proprietary

DATE OF PREPARATION:
5-5-94

REVIEWED BY:

Randy Oster, Environmental, Health and Safety Technician

DISCLAIMER:
Employers should use this information only as a supplement to other
information gathered by them, and should make independent judgements of
suitability of this information to ensure proper use and protect the health
and safety of employees. This information is furnished without warranty, and
any use of the product not in conformance with this Material Safety Data
Sheet, or in combination with any other product or process, is the
responsibility of the user.

C) Ceiling Limit Value
Withheld as a trade secret.

Section III - Physical Data

MELTING POINT (INDICATE IF "F" OR "C"):
Not applicable

APOR PRESSURE (mm Hg):
Not applicable

APOR DENSITY (AIR = 1):
Not applicable
Section III - Physical Data (Cont.)

SPECIFIC GRAVITY (H2O=1):
Greater than Water

PERCENT VOLATILE BY VOLUME (%):
62

VAPORATION RATE (BuAc = 1):
Slower than Butyl Acetate

SOLUBILITY IN WATER:
Insoluble

PEARANCE AND ODOR:

Section IV - Fire and Explosion Hazard Data

FLASH POINT (METHOD USED):
43 F (Setaflash Closed Cup)

EXTINGUISHING MEDIA:
Carbon Dioxide, Dry Chemical or Chemical Foam. Water may be ineffective, but may be used to cool exposed containers.

SPECIAL FIRE FIGHTING PROCEDURES:
Fire fighters should wear Self Contained Breathing Apparatus.

UNUSUAL FIRE AND EXPLOSION HAZARDS:
Toxic fumes of metals and vapors may be evolved in a fire.

Section V - Health Hazard Data

PRIMARY ROUTES OF EXPOSURE:
Skin: Yes  Eyes: No  Inhalation: Yes  Ingestion: No

OXICOLOGICAL INFORMATION:
There is no specific toxicological data available for this preparation. Any toxicological information is based on individual components that make up this material.

TARGET ORGAN EFFECTS:
Chromium Compds.-Skin
Cyclohexanol-Eyes, skin, respiratory system.
Perclearoethylene-Liver, kidneys, eyes, upper respiratory system, Central Nervous System, heart.
Turpentine-Skin, eyes, kidneys, respiratory system.
Xylene-Central Nervous System, eyes, GI tract, blood, liver, kidneys, skin.

CARCINOGENICITY STATUS:
The following chemical(s) are listed as carcinogens by NTP, IARC, OSHA or all:
Chromium Compounds (NTP)
Perclearoethylene (IARC,NTP)

EFFECTS OF OVEREXPOSURE:
Eyes: Short term liquid or vapor contact may result in slight eye irritation. Prolonged and repeated contact may be more irritating.
Skin: Prolonged and repeated liquid contact can cause defatting and drying of the skin, which may result in skin irritation and dermatitis.
Inhalation: Solvents can act as Central Nervous System depressants, exhibiting narcotic and anesthetic effects. Overexposure to some of these components may cause headaches, nausea, vomiting, drowsiness, diarrhea, liver
Section V - Health Hazard Data (Cont.)

and kidney damage.

EMERGENCY AND FIRST AID PROCEDURES:

Inhalation: Remove from exposure to fresh air. Give artificial respiration if not breathing. If breathing is difficult, give oxygen. Contact a physician immediately.

Skin: Remove contaminated clothing and wash skin with soap and water. Wash or clean before reuse.

Eyes: Rinse with clean water or saline solution for at least 15 minutes. Seek medical advice if irritation persists.

Ingestion: Rinse mouth with water and give water or milk to drink. Do not induce vomiting. Do not give anything to an unconscious person. Contact a physician.

Section VI - Reactivity Data

STABILITY (choose one): ( )UNSTABLE
(x)STABLE

CONDITIONS TO AVOID:

Avoid heating substance where it may be inhaled, open flames, oxidizers and sources of ignition. Solvent vapors are heavier than air and can accumulate, travel to sources of ignition and flash back.

INCOMPATIBILITY (MATERIALS TO AVOID):

Oxidizers such as chlorates, perchlorates, permanganates, and nitrates. If the preparation comes into contact with ammonia, explosive gold compounds may be formed. Ammoniacal gold solutions should never be stored.

Hazardous Decomposition Products:

Carbon dioxide, carbon monoxide, hydrochloric acid, oxides of sulfur and carbonaceous fumes.

Hazardous Polymerization (choose one): ( )MAY OCCUR
(x)WILL NOT OCCUR

Section VII - Spill or Leak Procedures

TEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED:

Use appropriate personal protective equipment during clean up operations. Promptly absorb spill using inert materials such as sand, vermiculite or sawdust. Remove all sources of ignition and prevent from entry into drains and waterways. If a Reportable Quantity is exceed for any ingredients, contact the National Response Center.

ASTE DISPOSAL METHOD:

Follow all Federal, State and Local regulations for removal and disposal.

Section VIII - Special Protection Information

Respiratory Protection (Specify Type):

A NIOSH/MSHA approved respirator with Organic Vapor cartridge represents the minimum level of protection. See OSHA 29 CFR 1910.134 for respirator fit, selection and use.
Section VIII - Special Protection Information (Cont.)

LOCAL EXHAUST: Recommended
MECHANICAL (GENERAL): Acceptable for small quantities

PROTECTIVE GLOVES:
Solvent impermeable gloves

EYE PROTECTION:
Safety glasses or goggles

OTHER PROTECTIVE EQUIPMENT:
Eye bath and safety shower

Section IX - Special Precautions

RECAUTIONS TO BE TAKEN IN HANDLING AND STORING:
Store in sealed containers in cool, dry place. Keep away from heat and sources of ignition.

OTHER RECAUTIONS:
Do not eat, drink or smoke while using this material. Follow good industrial hygiene practices.

Section X - Regulatory Information

REGULATORY INFORMATION:

TSCA Status: All components are on Inventory

SARA Title III Section 313 Reportable Chemicals:
- Chromium Compounds
- Perchloroethylene
- Xylene

This product contains one or more components which are subject to government restrictions concerning use. Therefore, this product is to be used only for the applications specified below:

1. Ceramic decorative paint for use in the pottery, glass or ceramic industry.
2. Electronic circuitry.

Should you resell this product to a processor or industrial user, advise them of this restriction.

Section XI - Right-to-Know Information

RIGHT-TO-KNOW INFORMATION:

Component                        CAS#    
Resin TSRN 80100419-5005p       64742-95-6
Solvent Naphtha                  8002-09-3
Resin TSRN 80100419-5000p        8019-80-7
Section XI - Right-to-Know Information (Cont.)

- Chloroethylene: 127-19-4
- Organo Gold Compound: TSRN 80100419-5006p
- Deodorant TSRN 80100419-5016p: 00000-00-0
- Turpentine: 8006-64-2
- Cyclohexanol: 108-93-0
- Xylene: 1330-20-7
- Chromium Octate: 20195-23-7

California Proposition 65:
Perchloroethylene is known to the State of California to cause cancer.
