INHALATION HEALTH RISKS AND SYMPTOMS OF EXPOSURE: Solvent vapor or mist can cause headache, dizziness, nausea, mild depression, convulsions, loss of consciousness and irritation of nose and throat.

EYE CONTACT HEALTH RISKS AND SYMPTOMS OF EXPOSURE: May cause irritation and transient corneal damage.

SKIN CONTACT HEALTH RISKS AND SYMPTOMS OF EXPOSURE: Prolonged or repeated contact may be irritating to skin.

INGESTION HEALTH RISKS AND SYMPTOMS OF EXPOSURE: Swallowing the liquid may result in vomiting. If vomiting occurs spontaneously, do not allow vomitus to be breathed into the lungs as even a small quantity in the lungs may result in chemical pneumonitis and pulmonary edema/hemorrhage. Overexposure to the Benzotriazole compound may cause liver damage or blood effects.

CARCINOGENICITY: NTP: No IARC: No OSHA: No

MEDICAL CONDITIONS GENERALLY AGGRAVATED BY EXPOSURE: Pre-existing skin, eye, or respiratory conditions may be aggravated by exposure.

EMERGENCY AND FIRST AID PROCEDURES:
EYE CONTACT: Flush with water for 15 minutes. If symptoms persist, seek medical attention.
SKIN CONTACT: Wash with soap and water. If irritation persists, seek medical attention.
INHALATION: Remove subject to fresh air. Give artificial respiration if breathing has stopped. Seek medical attention.
INGESTION: If swallowed DO NOT INDUCE VOMITING. Get immediate medical attention. If vomiting occurs spontaneously, keep victim's head below hips to prevent vomitus from entering the lungs.

SECTION VII - PRECAUTIONS FOR SAFE HANDLING AND USE

STEPS TO BE TAKEN IF CAS MATERIAL IS RELEASED OR SPILLED: Eliminate ignition sources. Dike and contain spill with inert material (e.g., sand, earth). Transfer material to containers for recovery or disposal and solid diking material to separate containers for disposal. Keep spills and cleaning runoffs out of municipal sewers and open bodies of water.

WASTE DISPOSAL METHOD: When discarded this material is a hazardous waste. RCRA #D-001 (ignitable); reportable quantity 100 lbs (SARA/Supersfund).

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING: Maximum storage temperature: 60°C/140°F. Minimum storage temperature: -18°C/0°F. Limit storage of combustible material to approved areas. Ground all containers when transferring material.

SECTION VIII - CONTROL MEASURES

RESPIRATORY PROTECTION: For nuisance levels of vapor or inadequate ventilation, an organic vapor respirator is appropriate. If spraying or sanding, wear a NIOSH-approved respirator for dusts, mists and organic vapors.

VENTILATION: Explosion-proof local exhaust ventilation at point of contaminant release is recommended.

PROTECTIVE GLOVES: Nitrile or other solvent resistant gloves.

OTHER PROTECTIVE CLOTHING OR EQUIPMENT: Safety glasses with splash protection or goggles.

WORK/HYGIENIC PRACTICES: Do not eat, drink or smoke when working with materials, avoid excessive skin contact, wash after working with materials, KEEP OUT OF REACH OF CHILDREN.
