This product and/or formula has been evaluated by a nationally recognized toxicologist and certified by the Arts and Crafts Material Institute (ACMI) to contain no materials in sufficient quantities to present a human health hazard.

SECTION III - PHYSICAL/CHEMICAL CHARACTERISTICS

<table>

<td>Evaporation Rate (Butyl Acetate = 1):</td>
</tr>
<tr>
<td>N/A</td>
<td>N/A</td>
</tr>
<tr>
<td>Solubility in Water:</td>
<td>Appearance and Odor:</td>
</tr>
</tbody>
</table>

Chalk in various colors. No appreciable odor.
SECTION IV - FIRE AND EXPLOSION HAZARD DATA

Flash Point (Method Used):  

Flammable Limits:  
LEL:  
UEL:  
Non-flammable

Extinguishing Media:

CO₂, Foam, or Water

Special Fire Fighting Procedures:

None known

Unusual Fire and Explosion Hazards:

None known

SECTION V - REACTIVITY DATA

Stability:

Stable (X) Unstable ( )  
Conditions to Avoid: Acids & possibly strong oxidizing agents

Incompatibility (Materials to Avoid):

Acids and possibly strong oxidizing agents.

Hazardous Decomposition or Byproducts:

Reacts with acids to produce carbon dioxide.

Hazardous Polymerization:

None known

SECTION VI - HEALTH HAZARD DATA

Routes of Exposure:

Inhalation: No known health hazard associated with normal use. Observe threshold limits, if exceeded a NIOSH approved respirator should be used.

Skin Contact: No known health hazards with normal use.

Eye Contact: No known health hazard associated with normal exposure. Exposure to higher levels could cause irritation.

Ingestion: No known health hazard associated with normal exposure. Ingestion of very large quantities may result in intestinal obstruction and/or constipation.

Effects of Over Exposure: Inhalation of dust in excess of threshold could cause respiratory irritation.
Emergency and First Aid Procedures:

Inhalation: Remove to clean fresh air. Consult a physician if any adverse effects are noted.

Skin Contact: If irritation occurs, flush area with lukewarm water for 15 minutes. If irritation persists, consult a physician.

Eye Contact: Flush with lukewarm gently flowing water for 15 minutes. If irritation persists, contact a physician.

Ingestion: Consult a physician.

SECTION VII - SPILL OR LEAK PROCEDURES

Steps to be taken in case material is released or spills:
Sweep spilled material and transfer to a suitable container for disposal. Assure conformity with federal, state and local regulations. Respiratory protection should be worn by those in cleanup operation to protect from airborne dust.

Waste Disposal Method: In accordance with federal, state and local regulations.

SECTION VIII - SPECIAL PROTECTION INFORMATION

Respiratory Protection: Not required for normal use. NIOSH approved respirator is recommended when excessive amounts of dust or levels which exceed safe thresholds.

Ventilation: Local exhaust ventilation. When there is a large scale use of this material, (e.g. manufacturing), engineering control methods to reduce exposure may be necessary.

Protective Gloves: Not required for normal use.

Eye Protection: Not required for normal use.

Other Protective Equipment: N/A

SECTION IX - SPECIAL PRECAUTIONS

Precautions to be taken in handling and storing: Store at room temperature in a dry place, separate from incompatible materials.

Other Precautions: None known.
SECTION X - OTHER INFORMATION

Additional Health Information:

Products bearing the CP Certified Products Seal or the AP Approved Products Seal of the Art & Craft Materials Institute, Inc., are certified in a program of toxicological evaluation by a nationally recognized authority on toxicology associated with a leading university to contain no materials in sufficient quantities to be toxic or injurious to humans or to cause acute or chronic health problems.

Additional Emergency Information:

24 hour emergency information may be obtained by calling the Rocky Mountain Poison Control Center at (303) 623-5716.
