Cleanup and Disposal: Clean brushes and equipment with mineral spirits. Keep container closed when not in use. Do not transfer contents to other containers for storage or disposal. In case of spillage, absorb with inert material such as sand or kitty litter. Dispose of empty cans or unused portion in accordance with local, state and federal regulations. Material Safety Data Sheets (MSDS) are available upon request.

DANGER: Rags, steel wool or waste soaked with this product may spontaneously catch fire if improperly discarded. Immediately after each use, place rags, steel wool or waste in a sealed, water-filled metal container and dispose of according to local regulations.

Physical and Chemical Data:
Drying Time: Penetrates in 5-10 minutes and dries in 6-8 hrs.
Weight: 6.95+/-0.05 pounds per gallon.
Flash Point: 106°F (41°C)
Film Thickness: None because Cabot Tung Oil Finish penetrates into the wood, leaving no film build.
Shelf Life: A minimum of five (5) years in closed original containers.
% Solids (weight): 28 - 28.2
% Solids (volume): 23.5 - 23.7
% Pigment (weight): 0
Viscosity: 10-30 cps.
Vehicle Type: Tung-phenolic varnish
Solvent Type: Aliphatic and Terpene Hydrocarbons
V.O.C. Content: GPL Maximum of 600 grams/liter (5.0 pounds/gallon)
TUNG OIL FINISH #8099
CLEAR FINISH

**APPLICATION**

**Surface Preparation:**
Apply only to bare or newly stained woods. Remove any old finishes, wax, grease or polishes. If necessary, wood should be sanded smooth in the direction of the wood grain, ending with fine (#220) grit sandpaper. Remove all sanding dust. Allow wood that has been stained with an oil-based stain to dry at least 24 hours.

**WARNING!** If you scrape, sand or remove old paint from any surface, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH-approved respirator to control lead exposure. Clean up carefully with a wet mop or HEPA vacuum. Before you start, find out how to protect yourself and your family by contacting the USEPA/Lead Information Hotline at 1-800-424-LEAD (5323) or visit www.epa.gov/lead.

**Application:**
This finish will have a slight amber color, and should be tested in an inconspicuous area to determine final effect. Apply liberally with a lint-free cloth or natural bristle brush in the direction of the wood grain. Allow to penetrate 5-10 minutes. Wipe off any excess Tung Oil. Allow to dry 6-8 hours. Sand lightly with fine grit sandpaper or fine steel wool and remove all sanding dust. Apply a second coat as before. **A minimum of two coats is recommended.** Additional coats may be applied after proper drying time, and will result in higher gloss and surface film thickness.

**Drying Time:** Dries to the touch in 4-6 hours. Wait 6-8 hours before sanding and recoating. Dry times are longer in high humidity or cool temperatures. Apply only when surface and air temperatures are between 50-90°F (10-32°C) during application and drying time.

**Number of Coats:** A minimum of two coats is recommended.

**AVAILABILITY**
Cabot Wood Care Products are sold throughout the United States and Canada. For a list of Cabot dealer locations, please contact Cabot's Technical Services & Support at 1-800-US-STAIN.

**WARRANTY**
If this product does not perform as stated on the label after you apply it according to label directions, Cabot will either replace this product or refund its purchase price, at its option. Cabot disclaims all other implied or expressed warranties. Cabot will not provide or pay for labor for removal or application of the product. This warranty excludes all incidental or consequential damages. This warranty gives you specific legal rights, and you may have other rights which vary from state to state.

**MAINTENANCE**
Minimal because Cabot Teak Oil penetrates deep into the wood.

**TECHNICAL SERVICES**
